Conferences Organized

1. **Dec 19-20, 2013** IEEE Conference on Information Management in the Knowledge Economy (IMKE -2013)

Brief Conference Overview

IMKE 2013 is the first IEEE sponsored conference of Chitkara University, Punjab. The IMKE intends to bridge the gap between different areas of digital information science and management. This forum will address a large number of themes and issues. The Conference focuses on original research and industrial papers on the theory, design and implementation of digital information systems, as well as demonstrations, tutorials, workshops and industrial presentations. IMKE is the Information Research Conference aimed at presenting and exchanging current research themes and experiences and fostering a relationship among universities, research institutes, and industry and policy makers to take stock of the current developments and have a look into the future trends in this area. The International Conference on Information Management in the Knowledge Economy is a multidisciplinary Conference on digital information management, science and technology. The principal aim of this conference is to bring professionals in academia, research laboratories and industry together, and offer a collaborative platform to address the emerging issues and solutions in digital information science and technology.
